Subject: Diamond Aircraft Introduces the Garmin G1000 Extended Warranty Program

Diamond Aircraft Industries has announced the Garmin G1000 Extended Warranty Program for the Individual owners of the DA40 and DA42 Aircraft. We are pleased that we can provide this upgrade to your current Garmin G1000 Warranty. The following will provide you with an outline of the Program.

Description:

- Coverage for Garmin Avionics Systems on G1000 Equipped Diamond DA40/DA42 Aircraft.
- To provide 3 years of additional coverage for a total of 5 years extended warranty from the original start date and provides the option to select LRU replacement only or LRU replacement and associated labor.
- **LRU's ONLY**
Includes:
 - Expands Avionics Coverage to 5 years (+3 years) from original warranty start date
 - Priority Service
 - Coverage for all Garmin LRU's
 - Expedited shipping of required components to/from Garmin Service Centers at no charge to customer
 - Warranty Transfer upon sale of aircraft

LRU's AND LABOR

Includes:

- Expands Avionics Coverage to 5 years (+ 3 years) from original warranty start date
- Priority Service
 - Coverage for all Garmin LRU'S, to include trouble shooting and replacement labor
 - Labor exceeding 2 hours must be approved
 - Expedited shipping of required components to/from Garmin Service Centers at no charge to customer
 - Warranty Transfer upon sale of aircraft
- GDC74(X) recalibration (2.5 hrs) during annual inspection, if required

- Recommended Garmin Service Bulletins
- Standard Warranty Policy coverage

Eligibility:

- Eligible aircraft include those up to 1 year out of original warranty (till 12-31-08). Aircraft currently out of warranty will require the aircraft to undergo an inspection and unit serial number verification at a Diamond Aircraft or Garmin Authorized Service Center.
- Includes new DA40 / DA42 Aircraft that are US and Canadian based only.

Aircraft Not Eligible:

- Aircraft that are outside of their original warranty end date by more than one year.
- Non-individual ownership such as Flight Schools, Charters, or Fractional aircraft.
- Aircraft located outside of the United States or Canada.
